Installation Guide

Please note that different wall types require specific screws and plugs to ensure structural integrity. We recommend that the sculpture is installed by a professional art installer. Please consult with a professional before installation.

STEP 1:

Hold up the Whirl Wall Sculpture at the desired position and angle on your wall.

STEP 2:

Using a drill, screw straight into the wall through the corresponding hanging fixtures in the sculpture.

STEP 3:

Repeat process as necessary with additional Whirl and Coil Wall Sculptures to build up your feature.
